Dear Friend,

Thank you for buying WSB.

Here, you'll learn the proven *secret strategies to easily sell digital products using just your WhatsApp WITHOUT running Ads.*

I bet it with you that this is the best decision you've made this year.

Without wasting your time, I'll show you **the exact strategies to how you can start making money from your WhatsApp** selling digital products.

**Only a few people are using this secret strategy and guess who taught them?
Me!**

Before I go on, let me share with you how [my own journey started](#).

If you don't care to know my story or how I got started, simply skip this to Chapter One of this book. I just think it would be fine if you get to know a little about me and why I'm qualified to write this book having made over N200,000 in less than 3 weeks of promoting a digital product just my WhatsApp 😊.

I lost my dad and mum at ages **6** and **14** respectively.

Things were so difficult! I was so frustrated!

I felt like committing suicide. I felt like giving up.

Somehow, I didn't just give up. I'll love to call it God's mercy and grace.

I managed to pass through secondary school and university with the help of God through some people. I wrote more on that in my amazing bestselling book, [I Have Been There Before](#). You can get the book on [Amazon](#).

I tried so many things which didn't work including MMM and others.

To be candid, I made some money from those things but their models are **not sustainable**. You know why?

They don't have products to sell.

After graduation from university, I was posted to Taraba state, a Northern part of Nigeria, to serve under NYSC.

It was in Taraba state that my eyes opened to the secret to selling on WhatsApp...

Gan gan!

Don't worry, you don't have to go to Taraba to know this secret, LOL. You'll know it right here.

I have been there before! That's why I'm here to help you.

As much as I've made some cool cash with this WhatsApp strategy, **creating my own digital products have been cumbasum** (Yes, you must have a digital product to sell). I have created a few and made some handsome cash **but I wanted more...**

I wanted an **easier and faster** way to make money even **without me going through the stress of creating the product myself.**

I searched online and found out about ClickBank, an affiliate marketing platform, but the bad news is that they don't accept Nigerians. I began to think "how about having our own ClickBank here in Nigeria?"

It was as if the universe was listening to me... it listens!

Earlier this year, I got an email from Toyin Omotoso about a seminar that was to take place in Lagos. It was tagged ***Income Upgrade***. In case you don't know, Toyin Omotoso is one of the top trusted online business persons in Nigeria.

I registered for the seminar and traveled to Lagos from Ekiti state. The reason is that I wanted to learn from Toyin Omotoso and his partner, Ronald Nzimora.

I wanted to upgrade my income as the seminar claimed.

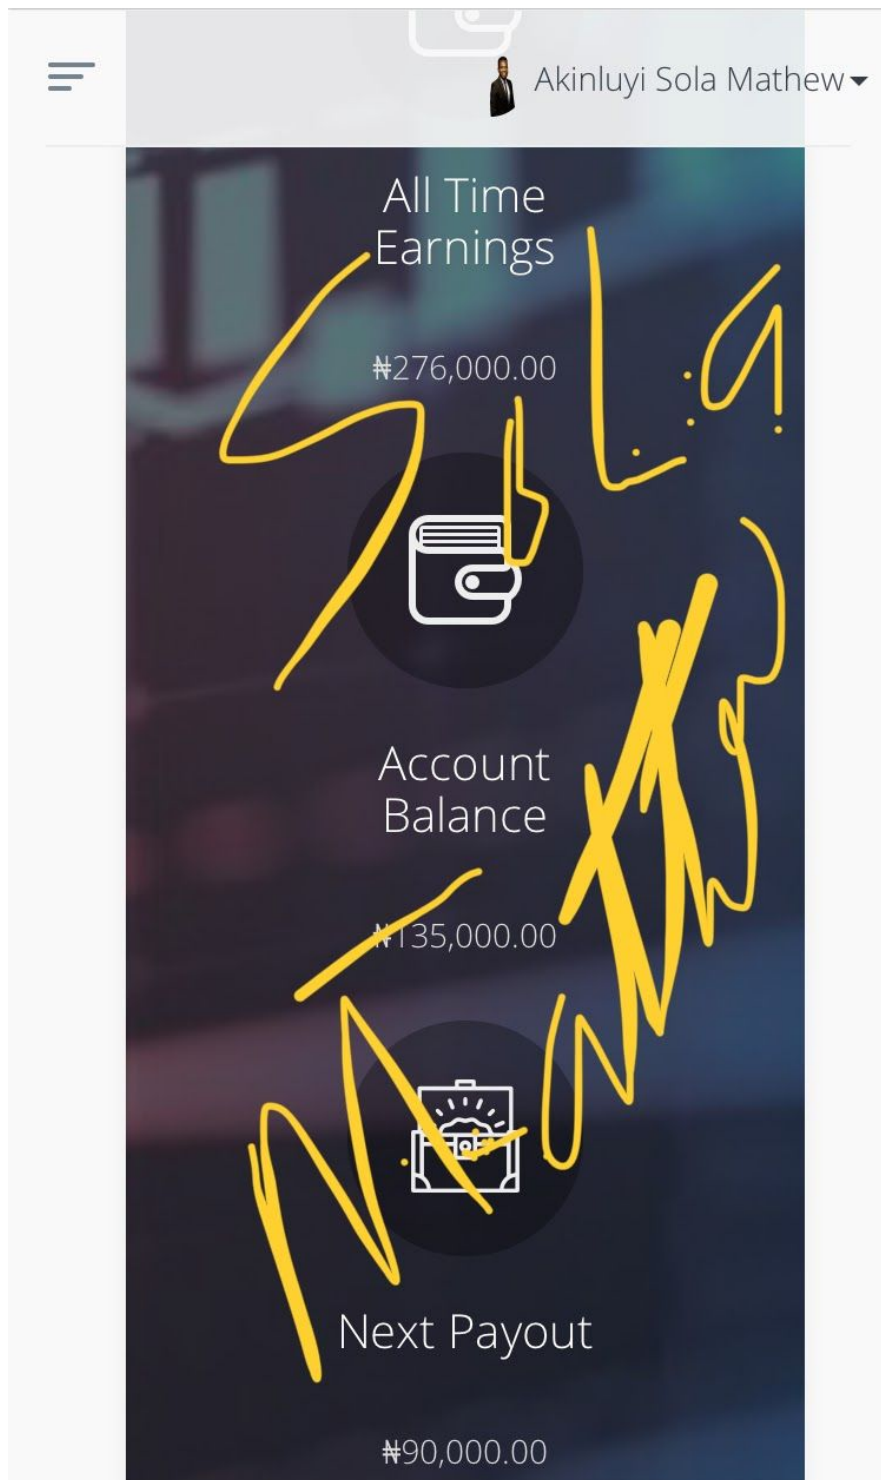

It was in Lagos that I got to know about [Expertnaire, an affiliate marketing platform](#) in Nigeria. This is a network just like Clickbank but specifically made for Nigerians. **You can call it our own Nigeria ClickBank.**

After the seminar, I got [signed up as an affiliate on the Expertnaire website](#). If you haven't signed up, please watch [this video](#) now to know more about it and sign up immediately before it's too late.

After signing up, I got access to digital products on the platform and started using these WhatsApp secret strategies to make sales....All WITHOUT RUNNING A SINGLE ADS.

These same secret strategies have now made me N276,000 in affiliate commission in less than 30 days.

See the proof below

I made the N276,000 you are seeing above in less than 30 days.

In case you're reading this book and you want to learn more about Expertnaire, the affiliate platform that is making people millions, visit goglobal.ng/72ig now. You will get access to digital products you can sell using the WhatsApp strategy in this book.

I mean, the digital products are already on the platform. All you need is to recommend them to your contact using the strategies in this book.

I'm a scientist. I studied Plant Science (also known as botany) in university and I understand that an idea still remains a hypothesis until it's proven to work over and over again.

So, I shared these same secret strategies with some of my clients and mentees who bought the [72 Hour Income Generator](#) from me and **those who used** the strategies made sales.

One of them made his first sale in less than 24 hours and the other after about 3 days.

Now, both of them have made over N100,000 in less than 2 weeks of using the WhatsApp sales strategies you're about to learn.

Not only them, others that I shared this with also made use of the strategies and they're making sales. Most of them made their first sales in 3 to 5 days of joining Expertnaire.

Is it everybody that is making sales with these strategies? I will lie if I say ‘Yes’.

I know of someone who hasn’t made sales for more than 2 weeks now.

So, what is it that distinguishes those who made sales and those who don’t? It’s simple!

Those who are making sales are **constantly taking massive action** on what I’m about to share with you.

Those who don’t make sales are not taking massive action. Maybe some of them are just shy or afraid of WPWS.

In case you don’t know, **WPWS** means ***What People Will Say***.

So, what will enable you to make sales using these secret strategies is how willing you are to take massive action.

Listen! You have to be **SHAMELESS** if you want to make money by selling digital products or with affiliate marketing.

I hope you’ll be a massive action taker.

Are you ready to discover this secret?

Great! I can hear you say “YES”.

Disclaimer:

Before I continue, I must let you know that results are not typical. The result you will get with the information in this book might be quite different from what I got or what my mentees got. For instance, my clients and mentees who got results using these strategies worked hard following what is in this book. And you might even follow these strategies and not make a single sale. All depends on how you use it.

That being said...

Let's continue...

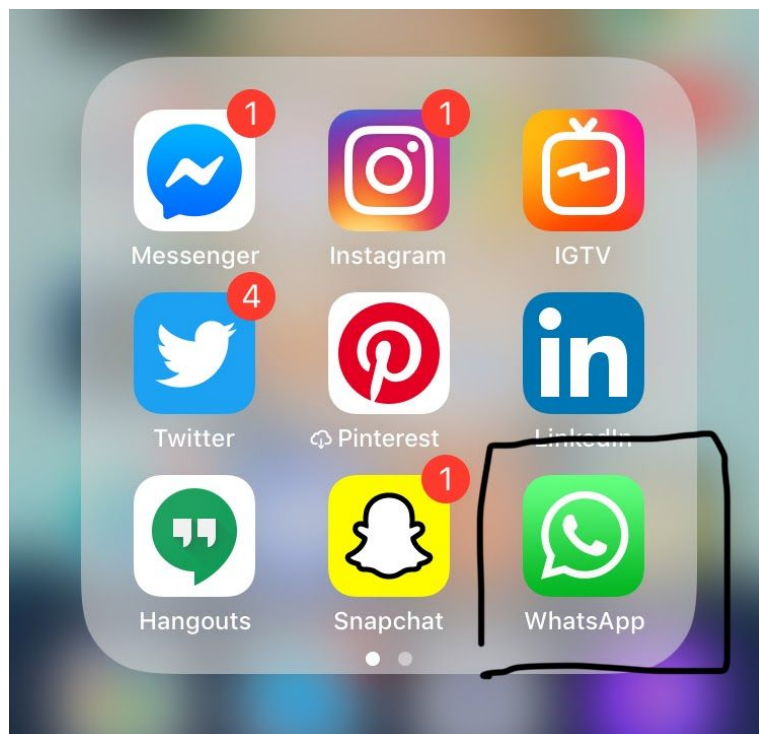

Chapter One

Now that you have gotten the [72 Hour Income Generator](#), let's talk about the WhatsApp strategies you can use to get started quickly and start making sales.

One thing is sure, closing sales is the lifeblood of an affiliate marketer.

I want to assume you already know what WhatsApp is. In case you don't know, it's an instant messaging platform where you can communicate with friends, families and clients. It's owned by Facebook Inc.

Let me show you how it looks. The icon I circled in the image below is called WhatsApp.

You can download WhatsApp from your Android or iPhone apps store.

Over **1.5 billion** people in 180 countries are using WhatsApp already.

According to a report by Hootsuite, **WhatsApp is the most active social media platform in Nigeria.**

85% of internet users in Nigeria use WhatsApp. The second is Facebook which is 78%.

You see? **WhatsApp is used more than Facebook.** No wonder Facebook bought it.

Why You Should Start Using WhatsApp to Sell Your Digital Product (or An Affiliate Product)

- It is the most active social platform in Nigeria
- It has high open rate
- Easy to set up
- You reach people one on one easily

The Five Ways to Make Sales on WhatsApp

There are basically five (5) ways to make sales using WhatsApp and I think you know them already but it might not just be the way you think of.

The 4 ways are through;

1. WhatsApp One-on-One Messages,
2. WhatsApp Status,
3. WhatsApp Broadcast Lists,
4. WhatsApp Groups and
5. Friends' WhatsApp

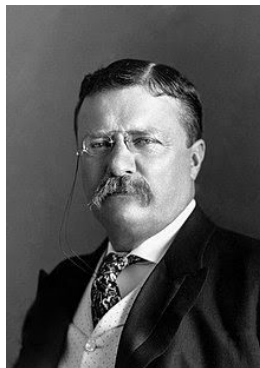

We will look into each of them in chapter three.

Chapter Two

Before you start implementing what you'll learn in chapter three, **I highly recommend that you read this chapter carefully**. It contains the deep stuff you probably wouldn't see anywhere else and these things will greatly impact your sales.

First, let's uncover a Secret...

The Sales Secret I Learnt From The 26th President of the United States that Made My Sales Jumped The Fence

Theodore Roosevelt, the 26th president of the United States from 1901 to 1909

I learnt a secret lesson from the 26th president of the United States that's really helping me make sales on WhatsApp and **this can be applied on any other marketing platform**.

Even though the man died in 1919 at age 60, the secret is still working till today...

Those who know this secret have been using it for long. Think of great people like John C. Maxwell, Martin Luther King Jr., Robert F. Kennedy, Mother Teresa,

Sheikh Mohammed bin Rashid Al Maktoum of Dubai, and Brian Tracy. They all know this secret.

Since I discovered this secret, my sales have jumped the fence.

So, what is the secret?

I call it the **RS Formula**.

Where **RS** = Relational Selling.

RS Formula = Value + Personalised Recommendation + Value

You can also just shorten it to

RS Formula = 2VR

Since this is not a Maths class, let me quickly explain what I mean by the RS Formula... and this is where I'll reveal the secret lesson I learnt from the 26th president of the US.

Back then, Theodore Roosevelt who was the 26th president of the US said these exact words...

“People don’t care how much you know until they know how much you care.”

It's from that quote that I got the RS Formula from.

See, the truth is people don't buy from people who they don't know, like or trust.

People buy from people they KNOW, LIKE and TRUST. It's called the **KLT Factor**.

How do you achieve the KLT Factor? It is by following what Theodore said — **CARE (genuinely) about people**.

Until they know you care, they don't care what you know or what you want to sell even if it would help them.

How to Show Care That Drives Sales on WhatsApp

Some of these things have been taught in the [72 Hour Income Generator](#). So, ensure you get it now if you haven't... Get it at goglobal.ng/72ig now.

The aim of showing care is to build TRUST... among the KLT Factor, this is most important.

Let me begin by asking you a question:

You see a tall sexy light in a complexioned lady for the first time. Her pair of breasts point out straight. No lagging. She catwalks before you, minding her own business like a queen...

You thought in your mind: "I want to have sex with this girl."

This is a lady you don't know her name or anything about her. She just appealed to your sex desires.

Then, you walk up to her and say "Hey, I want to have sex with you."

What do you think the lady would do?

Pause and answer.

If you're a lady reading this book, what will you do to that guy?

You see?

Slap 🖐️ abi?

The likely answers would either be that she slaps the guy, rain curses on him or just walk away...

BUT... what if you start this way;

You walk up to the lady, gently tell her your name and ask for her name, give her a genuine (not vague) compliment and tell her you will love to be her friend...

The chance is high that she will want to be your friend especially if you package yourself very well...

Maybe you exchange contact too.

The next day, you send her a text message telling her it was great meeting her. Maybe you sent the message in the morning.

In the message, you informed her you'll call her in the evening.

In the evening, you call her and she is excited to hear your voice.

You continue to show that you care about her... you listen to her and ask questions where necessary. You even find out that she has a boyfriend but the guy has been doing somehow.

Maybe you ask her for a date. Since you already know what she loves from your previous conversation, you take her to a beautiful restaurant and get her her favorite meal...

Note that you haven't asked her to date you... you haven't even said you love her.

She feels comfortable with you and both of you visit each other...

One day, she comes to your house. She says she's sleeping over...

To cut the long story short... you later have sex with the girl.

Did you see the difference?

I'm not saying you should go and practice that with a girl o... please, abstain from pre-marital sex.

The difference between the first guy and the second guy is the KLT Factor.

The first guy didn't care to know the girl or build a relationship with her first. All he wanted was sex.

The second guy, on the other hand, CARED about the lady which made the lady know him, like him and trust him. He got what he wanted at last.

Remember our RS Formula = 2VR.

The second guy gave the lady **value** and **value** over and over again before recommending his **product** to her.

If the second guy continues to give this value, he would be able to recommend other products and that will help him to have repeat sales.

Therefore, build relationships first before selling.

When you build a relationship first, you'll be able to know exactly what the other person wants and recommend a personalized solution to him/her.

In the next chapter, you will see how I generate repeated sales by building relationships with my WhatsApp contacts and how you can do the same.

Chapter 3

In the previous chapter, you saw that building relationships is very important. The aim is to make people know you, like you and trust you.

I should tell you, however, that you should do your best not to let down people when they trust you.

Only recommend useful, beneficial and helpful products to them. The products have to be valuable and not some pieces of crab.

That's more reason I love Expertnaire. They have valuable products on the platform.

In fact, one of the hot selling products I recommend you get right now is the [72 Hour Income Generator](#). If you have gotten it, congratulations.

The Five Ways to Make Sales On WhatsApp Explained: How I Made 6 Figures Selling on Whatsapp

Do you still remember the five ways to make sales on WhatsApp?

Let me get them for you...

Here are they:

1. WhatsApp One-on-One Messages,
2. WhatsApp Status,
3. WhatsApp Broadcast Lists,
4. WhatsApp Groups and
5. Friends' WhatsApp

Let's take them one after the other...

One-on-one Message

As the name implies, this is a situation whereby you send messages to your contact list one on one.

This is not a fast method but the most powerful.

The reason is because you can mention the **name** of that friend on your contact.

People like people who mention their names. They take it as a **personal** message.

That is why email and chatbot marketing are some of the most effective forms of digital marketing. **Personalized Marketing is Key.**

For now, Whatsapp has not developed that kind of technology that lets you mention people's names in a broadcast... I mean, such that everyone would receive

the broadcast in his or her own name. If you see this feature on WhatsApp tomorrow, don't be surprised. Just remember you have read it here.

I don't usually use this method anyways. It takes a lot of time but it really works.

I'll tell you how I achieved a similar result with broadcast soon. Check the **Tip** session.

So, what kind of message do you send here?

Let's assume the name of your friend is Christianah. By the way, I love that name 🥰. It's one of the sweetest names I know. Don't ask me why!

You can write something like;

Hello Christianah,

It's been a while here and I just thought of checking on you.

Please, be fine.

You don't need to add your name if Christianah already has your number and knows you.

Imagine you got such a message from someone, won't you reply? If it's me, I'll reply.

You can then keep up the conversation from there.

Warning: *this is not the time to recommend your digital product. Remember to build a relationship first.*

But if Christianah asks you a question like "Sola, what have you been up to?"

I can reply like this *"I thank God o. I've been developing myself by reading books and making some cool cash with a particular online platform."*

Only continue talking about the platform if Christianah asks you about it i.e the online platform.

If she asks, you can say something like

"Please, watch this video to the end and then ask me questions after watching."

[Insert Your Affiliate Link]

The video will expire soon too."

Most likely, she will watch and then get back to you.

When she gets back to you and says she has watched and asked what next, ask her
“Is it something you can do?”

If she says “yes”. Tell her that she *can* go get it.

If she says there’s no money, just wish her well.

In case she didn’t watch the video and says it’s too long, tell her that she can’t do the business without watching to the end.

Don’t explain the video unless she watches it to the end. Do the same for affiliate products that don’t have a video as pre-sell.

I hope you get that.

Like I said, this takes more time.

Let’s go to the next method.

WhatsApp Status

In this method, you simply write or upload a photo or video on your status about your digital product.

A message like the one below might work for you too...

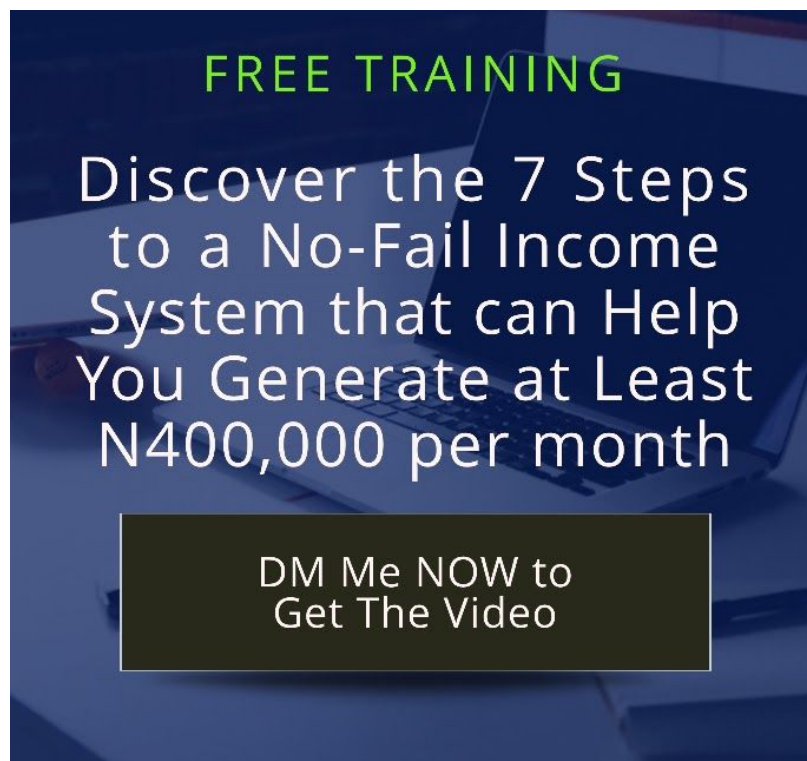

Are you interested in how to make at least N400,000 per month online? Send me a DM now to get a **FREE** video that shows you how to do so.

When someone sends you a message, simply send this message below:

Please click the link below to watch the video to the end and then get back to me.

[Insert Your Affiliate Link Here]

You can use a photo, like the one below, on your status:

I designed the image above with Canva. Again, you can find a Canva tutorial in the [72 Hour Income Generator](#).

In case of other messages, read the One-on-One method again.

Up next...

WhatsApp Broadcast List

Create a WhatsApp broadcast list. As at the time of writing this book, the maximum you can add to your WhatsApp broadcast list is 256. I don't really know why.

If you have more than 256 people on your contact, simply create another one. You can create more.

Start by using the RS Formula I discussed in chapter two.

Give value.

Recommend a product.

Follow up.

Give value again.

Yours can start with a happy new month message, an inspirational quote or inspiring story.

Tip: *When sending broadcasts, ensure you use personalized words. For example, it's more powerful when you say "You" than "You all" or "Dear Friend" than "Dear Friends".*

The point here is to write as if you're writing to just one person. That's the way I achieve something similar to the one-on-one method discussed earlier.

After you've built that rapport or relationship, only then should you start sending promotional broadcast messages. You can see the bonus section of this book for the exact promotional or sales scripts I used. You don't have to use them the exact way I did... just adapt to suit your audience.

One of my mentees said he simply added 50 people (call it an audience research) he thought would mostly buy the 72 Hour Income Generator from him and added them to a broadcast list.

He got his first sale in less than 24 hours of sending a promotional message. Again, I have added his exact first message in the bonus section.

Should you broadcast messages to unknown persons? No way! I don't advise that. Make sure you build relationships first. Don't just collect people's numbers and start sending broadcast messages to them. They might report you as spam. If WhatsApp gets more spam alerts about your number, your number can be blocked.

Next is...

WhatsApp Groups

This is in two parts and I'll explain.

One is if you're the group owner and the other is if you're not the group owner.

Part A

If you're the owner, this set of people should have trusted you over time.

All you need do is simply recommend the digital product you're promoting to them.

Or...

If you don't have any existing group yet, create a special group as a pre-sell.

What I mean by pre-sell is this:

Assuming you want to promote the 72 Hour Income Generator as a product, you can organize a **FREE** class (not the word “FREE”) on How To Make Money Online or 3 Ways to Make Money Online.

Tip: *FREE is a very powerful word in marketing. So, use the power to your advantage. I call it the Power of FREE.*

You can use any topic of your choice. I just used the above as examples.

It could be one day class or two days depending on what you want to teach them.

Invite people to join the group for the free training. Encourage those who have joined to share the group link with their friends. Since it's free, many should join.

During the class, teach them about how to make money online and include Affiliate marketing as one of the ways to make money online.

Of course, you can recommend Expertnaire as the only affiliate marketing platform that sells digital products in Nigeria.

I hope you know that Konga, Jumia, etc also have affiliate programs. Their commissions are way lower though. This is another selling point for you.

You might ask, “why must I teach for free?”

What you’re doing there is building relationships before selling. Remember the RS Formula, right? That’s what we are using here. Just ensure you give them massive value for free.

After the class, you should see some people who will buy the product from you.

If you can still keep up with sharing valuable content to them, you can keep the group. Once in a while, follow up on them by sharing the digital product you’re promoting to the group.

The second part of the Whatsapp group method is **if you’re not the owner.**

Part B

If you’re not the owner of the group e.g you belong to a group of your friend, church, etc.

Don’t just send messages to the group about making money online. Some of them might think you're a scam.

Instead, use the RS Formula.

Share interesting stories of making money online without sounding salesy. It takes some skill to do this.

Or you can simply invite them to your free class. Make sure you inform the owner or admin of the group before you share it. Some might even post it for you themselves.

Next up...

Friends' WhatsApp

This is just simple. Ask your friends to help you post on their statuses, broadcast or groups.

Through that, they are transferring instant trust that their friends have for them to you.

This is best done if you've made some sales so you can use as testimonials.

Tip: *Testimonials are a great way to sell on Whatsapp. Even if you've made one sale, let people know about it.*

If you have not made sales yet, use those of others who have made sales.

You can tell your friend to use this kind of message...

Hello, Good Morning (depending on the time)

My friend, Sola, has just made over N120,000 by simply recommending digital products to people.

You can also learn how to do the same by tapping the link below now.

[Insert Affiliate Link Here]

P. S.

The video is FREE but will soon expire.

If people need more information after watching the video, your friend can refer them to you.

Congratulations! We just went through the five ways to make sales through WhatsApp. They worked for me and I hope they work for you too.

Mistakes to Avoid

I have shared some of these mistakes already but let me share again.

- Research your audience. More on that in module one of [72 Hour Income Generator](#).
- Sell benefits of the product and not features alone.

- Don't sell without building relationships. Remember that people must know you, like you and trust you before they can do business with you.
- Avoid buying people's numbers and sending messages to them. Send to those that you know and know you. This will prevent you from being blocked from WhatsApp.
- Set smart goals. This would really help you to push further.
- Follow up consistently.
- Take permission from owners of groups before sending messages to avoid being removed or termed a scam.

Final Words...

These are two words I have come to believe and use over time and I hope they help you. You are free to quote me.

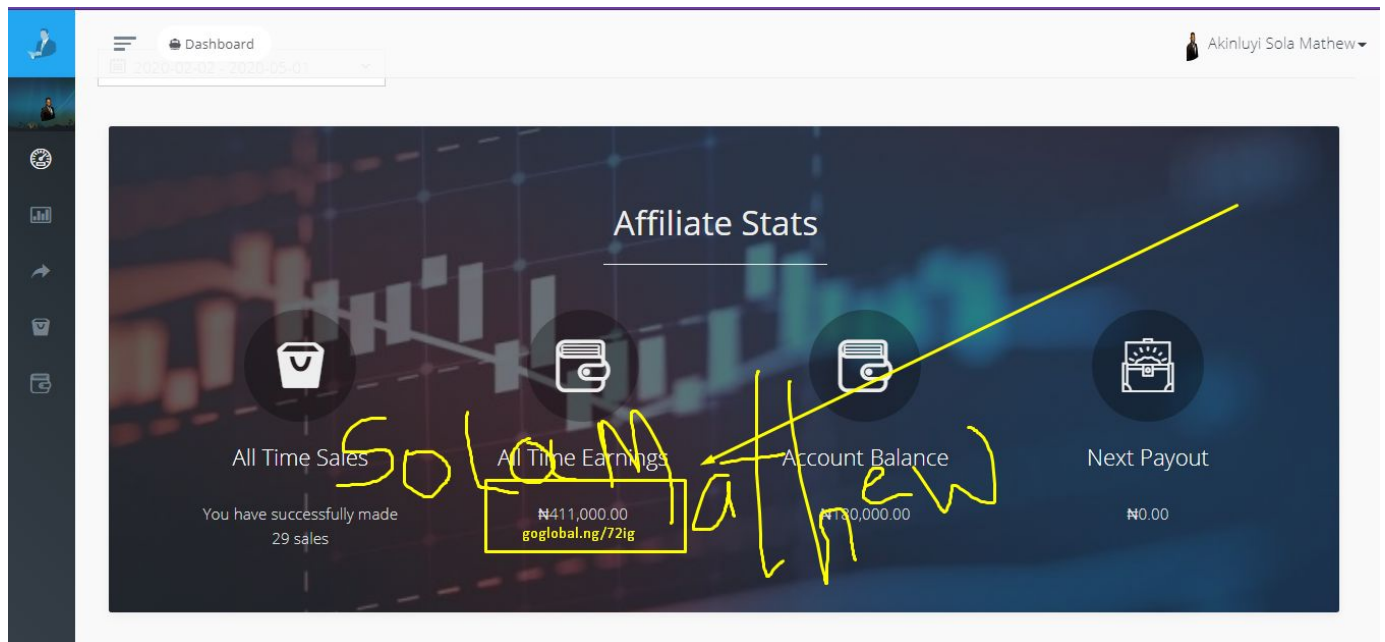

If you believe you can, you can and if you believe you can't, you can't.

All you need to succeed is in YOU.

Please, even though I wrote focusing on Whatsapp, don't limit yourself to Whatsapp only. Promote on Facebook, Instagram, Twitter, and any other platforms you can. I will strongly advise you to go through the Facebook Ads Guide in the [72 Hour Income Generator](#) program. Using paid Ads might give you FASTER results. By the way, that is what I am going to try next...

UPDATE...

By the time I was done writing this book, I had already crossed the N400,000 monthly mark using just my WhatsApp. See the screenshot below.

N90,000 From 3 Sales in Less than a Week

When Adebayo told me that he had to borrow money from his mum to start this business, I was skeptical.

Maybe if he had told me before he did, I would have discouraged him... but it was too late as he had borrowed 30K and ordered the 72h IG program already.

AND he proved me wrong!

After purchasing the program, he watched some of the videos and did what was advised in the video.

One of the bonus materials is on how you can make your first 2-5 sales.

Shockingly, he has now made 3 successful sales of a product worth 30K.

I couldn't just imagine the fulfillment and smile he shown when he was telling me about his sales.

Now, it means that in less than 1 week, Adebayo has made back his initial investment and also gained.

He hasn't even ran any ads yet o.
Just his WhatsApp.

It's this same program I shared with you some days ago.

Luckily enough, the expiry date of the video has been shifted to 11th of April, 2020. That's just 8 days to go.

— Your Name

One, no, two More Sales Script for You because I love you... This is the 8th and the final I'll add here.

You might hate MATHS but let's do this simple money Maths;

Imagine you register and get a product on Expertnaire and the product price is 30K.

The commission for the product is 50%.

Let's assume you get 10 people to buy the product using your WhatsApp.

That's $30K \times 10 = 300K$

Since the commission is 50%, it means you would have made 150K.

Now, imagine selling 100 of such product. How much would that be?

Making money is as simple as that!

Adebayo, the guy I shared his story with you yesterday, was able to make his first 90K sales sending broadcasts on his WhatsApp.

I'm not saying you will achieve similar result but what I guarantee is that when you try this out and do all that is in the program, you'll make money.

Learn to do this same thing that Bishop David Oyedepo Did to Become a Billionaire

Years ago, I learnt something about becoming great and wealthy in life... the lesson is being attributed to Bishop David Oyedepo

In case you don't know him (which I don't think so), he is the owner of Covenant University and the senior pastor of Living Faith AKA Winners Chapel.

I heard that he wasn't a rich person from the start...

But he kept saying and preaching about being rich...

He would say something like

"I am rich."

"I cannot be poor."

etc

Remember the video about the secret law of attraction that I shared with you some days ago? *(I had sent them a YouTube video on this earlier. You can get a video like that and share if you think it would be useful to them.)*

David Oyedepo and many other great people like him know about the secret and use it.

So, today, what is it that you really desire to be?

Why not start proclaiming and ACT that you're that thing?

Instead of saying "I want to be rich" you should be saying "I am rich".

One tiny voice will whisper to you that you don't even have N1000 in your account... don't listen.

Keep proclaiming in FAITH and you'll get there.

One last thing, your faith should be backed by ACTION.

If you proclaim that you're rich then you need to do what they rich do to be rich...

For example, you can start by watching this FREE video on how you can start generating at least N400,000/month. Link below
